## What is claimed is:

- 1. A method of forming a single crystalline aluminum nitride film, comprising nitriding a single crystalline  $\alpha$ -Al $_2$ O $_3$  substrate to form an aluminum oxynitride layer and an aluminum nitride film on the aluminum oxynitride layer.
- 2. The method of claim 1, wherein the single crystalline  $\alpha\text{-Al}_2O_3$  substrate is nitrided by heating in the presence of carbon, nitrogen and carbon monoxide.
- 3. A single crystalline aluminum nitride film which is obtainable by the method of claim 1 or 2.
